Use the top part of this template to record ideas from the group, and the bottom part to craft a mission statement related to equity:

What are your partnership’s long-term goals (10-year) for promoting equity in your work with young people?

What do you consider to be key equity indicators for your partnership?

How will you promote inclusion within the design, implementation, and research process?

What historical patterns of exclusion will you need to attend to in the process?

What political support and opposition do you expect, when it comes to your equity goals?
Our Equity-Focused Mission Statement

- Represent the long-term goal and indicators of success
  - Identify principles for inclusion you will follow
- Name and acknowledge historical inequities you will address
  - State "what you will stand up for"
